Recent Events

Long Night of Science, Jena

On November 25, the "Long Night of Science" took place in Jena, Germany and we were pleased to welcome numerous visitors at our site. They had the opportunity to experience a unique and educational program at our premises. "The evening itself was a real team success and we wouldn't have been able to cope with the crowds of visitors without our dedicated employees. I think all our guests have become a bit smarter and will keep our company in good memory." (Stefan Jakobs, VP & Managing Director Site Jena)

Product News

Patterned Chrome Wafer

Lighting concepts for vehicles have become state-of-the-art. They are digital, intelligent, and precisely predict the driving encompassing condition. The light can be manipulated and controlled accordingly to the experience, accentuate the interior and exterior of the vehicle, functionally or aesthetically, and it can allow easy brand recognition. Materion Balzers Optics provides the precise chrome patterned wafer for welcome carpet lighting applications, helping automotive industry suppliers present novel lighting concepts to manufacturing leaders.
