

Analytica, Munich

Welcome at Analytica in Munich, the leading international trade fair for laboratory technology, analytics, biotechnology and analytical conference.

Visit us at our booth from April 10 - 13, 2018 and meet with our experts for specific advice. Try our special action points at our booth 119C, hall A2.

Join our presentation about «Biophotonic Applications and their requirements on optical filters» by Dr. Stefan Glied, on April 11, 2018 at 11.00am.

Fluorescence Filter Sets

Optics Balzers fluorescence filter sets include excitation and emission filters (bandpass, shortpass or longpass) as well as a dichroic beamsplitter. Cut-on and cut-off wavelengths of the filters are optimized for the excitation light source and for the fluorescent dye. The filter performance is realized by...

Linear Variable Filters

Linear Variable Filters for Miniaturized Spectrometers

Optics Balzers provides customized linear variable filters in a wavelength range between 300 nm to the NIR range. Bandpass filters, long pass and short pass filters are available on request. Blocking levels as low as OD4 can be achieved...

CorrSlide™

Correlative microscopy is a sophisticated approach combining the imaging capabilities of different powerful, but typically separated microscopy platforms. Laborious, time-consuming and limited-precision procedures of getting a sample from one instrument to another have however limited the possibility of obtaining fast and reliable results. CorrSlide™ technology improves the efficiency by offering transparent slides with integrated, ...

Raman Spectroscopy

Optics Balzers Raman filters are key components for highly sensitive Raman spectroscopy. Laser blocking filters (longpass, shortpass or notch), laser cleaning filters (narrow bandpass) and dichroic beamsplitters are available for all laser wavelengths between 260 nm and 1550 nm. These filter sets excel due to effective laser blocking down to OD5 and OD6, high transmission ...

Our next Events...

Optatec, Frankfurt

Welcome to Optatec in Frankfurt from May 15 - 17, 2018. The Optatec international trade fair for optical technologies, components and systems is the industry event for an enormous future market.

Come to our booth F25 in Hall 3.0. We look forward to welcoming you as our guest.

VDI Optical Technologies in Automotive Engineering, Karlsruhe

Under the professional sponsorship of the VDI / VDE Society for Measurement and Automation Technology (GMA), experts at the "Optical Technologies in Automotive Engineering" conference in June 2018 are already picking up the industry's rapid development for the eighth time.

As the global market leader, Optics Balzers focuses on high-tech markets such as automotive. Visit our stand at the VDI conference from June 5 - 6, 2018 and find out about the unique solutions.

Lasys, Stuttgart

Welcome to Lasys in Stuttgart from June 5 - 7, 2018. Come to our booth A16 in hall 4 to discover the unique solutions and the wide variety of applications that optical components allow.

We look forward to welcoming you as our guest.
