

BiOS / Photonics West, San Francisco

Visit us at the SPIE trade fair in San Francisco from January 27 – February 1, 2018 at booth #8719, Westhall (BiOS) and booth #2038, Southhall (Photonics West).

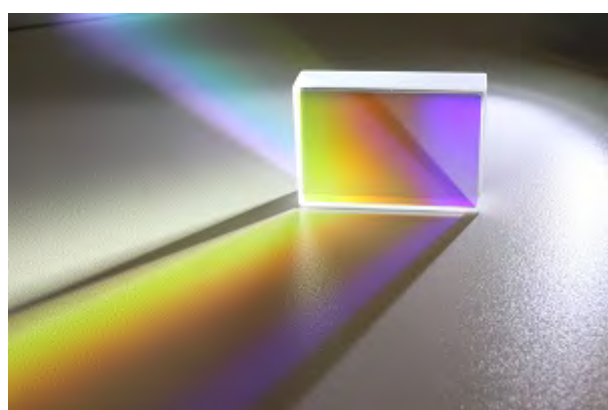

Highlights

- At this year's SPIE Production Demonstration on «Photonics West» in San Francisco, Dr. Stefan Gliech, Product Manager will hold a presentation about «All-dielectric filter solutions for Multi- and Hyperspectral Imaging»
- Spectrometer & Gesture Control Action Points
- Get your football give away at our booth #2038 and be ready for Super Bowl LII (52)

Discover unique solutions and the wide variety of applications for optical coatings and components. We are looking forward to welcoming you as our guest.

SPIE. PHOTONICS WEST BIOS

All-dielectric filter solutions for Multi- and Hyperspectral Imaging

Wednesday, January 31, 2018 at 12:00, Dr. Stefan Gliech

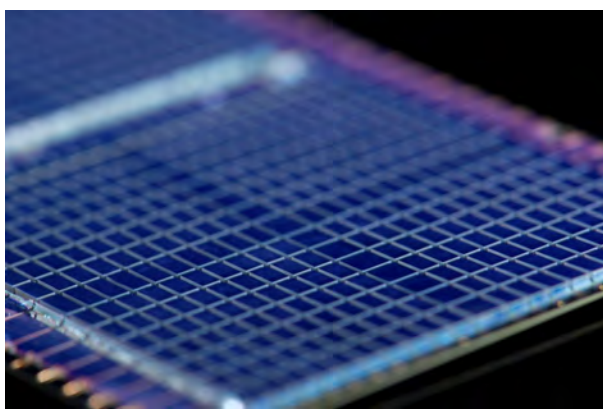

Multi- or hyperspectral imaging is one of the major trends in the photonics industry with a steadily growing market volume. Since the optical response of a scene is recorded in multiple spectral bands, much more information can be obtained than by a simple ...

Wafer Level Coatings

The spectral response of photodiodes, phototransistors or CMOS sensors can be modified by micro-patterned interference filter coatings. The coatings are applied by photolithographic technology on 2 to 8 inch wafer sizes. Bondpads are kept free. The high positioning accuracy allows several filters to be deposited onto adjacent photodetectors on a die ...

Three International Production Sites for your Products of Quality

Optics Balzers (located in the Principality of Liechtenstein) has been the preferred partner for providing innovative optical coatings and solutions for 70 years. Together with its subsidiaries in Jena (Germany) and Penang (Malaysia), Optics Balzers is a global leader in the supply of optical coatings and components ...

Our next Events...

Laser World of Photonics, Shanghai

LASER World of PHOTONICS CHINA, Asia's largest trade fair for the photonics industry, has taken place in Shanghai every year since 2006. It presents the entire range of photonics in an international setting, tailored to the specific needs of the Chinese market.

Visit our booth in hall W1 #1706 at the Laser WoP Show in Shanghai from March 14 – 16, 2018.

[> More Information](#)

Analytica, Munich

Welcome at Analytica in Munich, the leading international trade fair for laboratory technology, analytics, biotechnology and analytica conference.

Discover unique solutions and diverse applications with optical components at our booth no. 119C in hall A2 from 10th to 12th of April 2018.

[> More Information](#)

Optatec, Frankfurt

Welcome to Optatec in Frankfurt from May 15 - 17, 2018. The Optatec international trade fair for optical technologies, components and systems is the industry event for an enormous future market.

Come to our booth F25 in Hall 3.0. We look forward to welcoming you as our guest.
